

# Installation of MED on Linux

You can download the sources from [here](#)

Unzip it.

Then run the following commands:

```
./configure  
make  
sudo make install
```

If hdf5 is not installed in /usr replace:

```
./configure
```

by

```
./configure --with-hdf5=<path-to-hdf5>
```

Where <path-to-hdf5> is the path to your hdf5 installation.

If you want to specify where to install the software replace:

```
./configure
```

by

```
./configure --prefix=<install-path>
```

Where <install-path> is where you want to install it.

This folder can not be the one containing the sources.
