

Installation of metis on Linux

The source code of metis can be found in the TELEMAC-MASCARET sources in
<root>/optionals/metis-5.1.0

Otherwise you can download them from [here](#)

Installation

In the metis folder type the following commands:

```
| cmake -D  
| CMAKE_INSTALL_PREFIX=<install_path> .  
| make  
| make install
```

Replace <install_path> by the path where you want to install metis.

<install_path> should contain:

a folder lib that contains the file libmetis.a

(optional) Dynamic installation

Replace the cmake line by:

```
| cmake -D  
| CMAKE_INSTALL_PREFIX=<install_path>  
| -DSHARED=TRUE .
```
