Installation of Numpy on Linux

Check if it is already installed

Type in a terminal:

```
python3
```

Then in the Python environment type:

```
import numpy
```

If numpy is not installed you should get the following error:

```
Traceback (most recent call last):
File "<stdin>", line 1, in <module>
ImportError: No module named numpy
```

Installation

Type in a terminal:

```
sudo apt-get install python3-numpy
```
