

# Installation of scipy on Linux

## Check if it is already installed

Type in a terminal:

```
[python]
```

Then in the Python environment type:

```
[import scipy]
```

If numpy is not installed you should get the following error:

```
Traceback (most recent call last):  
File "<stdin>", line 1, in <module>  
ImportError: No module named scipy
```

## Installation

Type in a terminal:

```
[sudo apt-get install python-scipy]
```
